

TE Project Selections for FY 2006 & FY 2007

State Transportation Board Members have made their selections for the Transportation Enhancement (TE) projects for the FY '06 and FY '07 funding. A call for applications was held last July statewide. The deadline for submitting applications was September 23, 2005. GDOT received 275 applications statewide requesting over \$220 million in TE Funds. There was only \$54.6 million available statewide for TE projects; g each Board Member was allocated \$4.2 million for their congressional district.

Once applications were received, there were technical reviews done by the Department to ensure the applications met the criteria and federal guidelines. Once the technical review was completed, the TE Advisory Panel was sent applications to review, rank, and make recommendations to the Transportation Board Members. The Transportation Board Members then had the difficult task of selecting projects based on the technical reviews and TE Advisory Panel recommendations. Projects are selected by Congressional District and done individually by the Transportation Board Member representing the Congressional District.

As a result we have 151 new projects being added to the program statewide. The list of new projects is sorted by Congressional District.

Congressional District 1

County	City	Project Name	Federal Share Awarded
Appling	Baxley	Baxley Downtown Streetscape Plan Phase II and Welcome Center	\$250,000
Bacon	Alma	Downtown Alma Streetscape	\$250,000
Berrien	Enigma	Enhancing Enigma By Providing Pedestrian Facilities	\$75,000
Berrien	Nashville	Continuing the Progress Downtown - Phase 2 Streetscape	\$200,000
Charlton	Folkston	"A Stroll Downtown/Center City of Folkston" Sidewalks, Phase 2 Completion	\$85,000
Chatham	Tybee Island	Tybrisa Street Streetscape Improvements	\$80,000
